

# Home Systems Protection

**Home Systems Protection covers repairs or replacement when home systems, equipment and major appliances break down.**

For example: *If your furnace breaks down or your home entertainment system stops working, you'd have insurance to pay for the cost to replace it.*

## Why do I need it?

This insurance coverage is meant to protect you from surprise expenses you may not expect — but could happen at anytime. Home systems are not typically covered under a basic home insurance policy.

## What does it cover?

Home systems and equipment like:

- boilers, furnaces and heat pumps
- hot water heaters and radiant floor heating
- central air conditioning
- water purification and filtration
- ventilating systems
- well pumps, installed sump pumps
- home security monitoring and control devices
- pool, spa or sauna equipment
- electrical service panels
- solar/wind/geothermal heating or energy
- kitchen and laundry appliances
- home entertainment equipment
- computers and wireless devices
- power tools and shop equipment
- lawn and garden equipment
- portable generators and sump pumps
- ... and more
